

Discharge summary for day case Dental Procedures

Dear Parent / Patient

You or your child has just had a procedure under general anaesthetic. This is what can normally be expected in relation to the anaesthetic for the first 24-48hours after today's procedure:

- Sleepiness
- Feeling a bit tired
- Loss of appetite
- Mild nausea
- Headache or mild ache
- Mild fever (<38.5C)
- Small amount of blood in saliva.
- Mild nose bleed
- Mild cold/sinus congestion

If you have any of the following symptoms, please visit your GP or your nearest trauma unit with this letter.

- Drowsiness
- Excessive vomiting (>24hrs)
- High Fever (>38.5C for >24hrs)
- Breathing difficulties
- Excessive bleeding from the mouth
- Excessive bleeding from the nose
- Any pus draining from mouth
- Unable to open mouth
- Unable to eat or drink (>24hrs)

Feel free to contact us at the surgery on 021 6969428 or after hours on 0829711111 if you have any concerns.

We hope that you or your child has a speedy recovery.

Kind regards

Dr. S. Khan & Associates
